

## Seed2Soil<sup>®</sup> Learning Group

*Powered by SciMax Solutions*

### WHAT IS SEED2SOIL, POWERED BY SCIMAX?

*Seed2Soil powered by SciMax* is the second tier of our Seed2Soil program. Customers enrolling in the “Learning Group” option must be equipped with a yield monitor and have previously obtained grid soil samples of their fields. These growers are looking to increase their level of management using the information produced by precision agriculture technology. The learning group system is simply a platform for introducing new precision agriculture concepts and putting the information to work in your fields.

### SEED2SOIL'S SCIMAX SOLUTIONS OFFERINGS ARE A TOOL TO...

1. bring more meaning to grid sample data and geo-reference yield data
2. facilitate learning about nutrients, varieties, and production practices
3. help the marketer bring more knowledge to customers

For more information on how Seed2Soil powered by SciMax can help you maximize yield from your acres through the Learning Group, contact your Latham representative today at 1.877. GO LATHAM (1.877.465.2842), or email us at [seed2soil@lathamseeds.com](mailto:seed2soil@lathamseeds.com)!
