HI-TECH SEEDS

Independent. Options.™

# CONNECTING TO WI-FI

1. Tap on the “Settings” app
2. Tap on “Wireless”
3. When it loads, select the wireless name
4. If it requires a password, tap into the Password box and type in the given password.
5. Hit Connect.
6. You should now be connected to the wireless network.

# CREATING A SHORTCUT

Any website you visit often can be made into a shortcut so it's can be easily found.

1. Go into Safari and load the page you want.
2. Tap the Share button at the bottom on the screen.
3. Tap Add to home screen.
4. Change the name of the icon to what you want to call it.
5. Click Add to home screen.
6. Now you will have an icon that looks like an app and takes you straight to the site.

# WEATHER

## **The Weather Channel® for iPad - FREE**

The Weather Channel for iPad combines interactive and beautiful imagery. With over 200 meteorologists and our ultra-local TruPoint<sup>SM</sup> forecasting technology, The Weather Channel helps you plan the best day possible.

## **Intellicast HD- FREE**

Intellicast HD raises the bar for interactive real-time weather applications. Whether you're checking the forecast or tracking SEVERE storms, Intellicast HD is the only iPad weather app you need.

# READING

## **iBooks - FREE (Comes with iPad)**

iBooks includes the iBookstore, where you can download the latest bestselling books or your favorite classics – day or night. Browse your library on a beautiful bookshelf, tap a book to open it, flip through pages with a swipe or a tap, and bookmark or add notes to your favorite passages.

## **Newsstand - FREE (Comes with iPad)**

Newsstand is dedicated to downloading and displaying digital versions of newspapers and magazines. The app icon updates with the latest front covers with a notification indicator of new editions.

# GAMES

## **Solitaire - FREE**

If you like Windows Solitaire, you're going to love this app! It offers the same classic Windows Solitaire game, plus the ability to control card movements naturally by just swiping or tapping the cards on your iPhone/iPod touch/iPad.

## **Shanghai MahJong Tiles - FREE**

Mahjong Solitaire is a matching game for one player. The goal of the game is to remove all tiles out of the board by pairs.

## **Angry Birds - FREE**

The survival of the Angry Birds is in your hands! Dish out revenge on the greedy pigs who stole their eggs. Use the unique powers of each bird to destroy the pigs' defenses. Angry Birds features challenging physics-based gameplay and hours of replay value. Each level requires logic, skill and force to solve.

## **Peggle - FREE**

Shoot to clear all the orange pegs from 55 sparkling levels in what msnbc.com calls one of the "top 5 most addictive games of all time." Become a Peggle Master and pit your skills against over 40 Grand Master Challenges. Rack up bonus points and hit style shots that will make you smile for weeks.

# ORGANIZATION

## **Reminders - FREE (Comes with iPad)**

Use Reminders to organize your life in to-do lists — complete with due dates and locations

## **Out of Milk - FREE**

Have you ever returned from grocery shopping and realized you forgot that one item you really needed? Then Out of Milk is the perfect app for you! Out of Milk is the best app for creating and sharing Grocery Lists.

# QR-CODE SCANNING

## **Bakodo - QR & Barcode Scanner - FREE**

Use the barcode scanner (iPhone 3GS and later) to quickly and accurately scan barcodes on books, movies, games, groceries and practically any retail product! Use the search feature on legacy iPhones, iPad and iPod Touch to search our massive and growing product database.

## **Kaywa Reader - FREE**

Open the Kaywa Reader, point your phone at the QR code, and it will automatically detect the code. That's it! No need to login; no need to take a photo or press a "Scan" button like with other apps. Just scan and enjoy the content!

# UTILITIES

## **Calculator PRO - FREE**

Users who want to make basic calculations will definitely enjoy the standard option while math gurus will find it very handy to use a scientific mode.

## **Adobe Reader - FREE**

Install the free Adobe Reader mobile app to work with PDF documents on your iPad, iPhone, and iPod touch. Easily access, manage, and share a wide variety of PDF types, including PDF Portfolios, password-protected documents, fillable forms, and Adobe rights-managed PDF.

## **Facetime - FREE (Comes with iPad)**

With a tap, you can make video calls over Wi-Fi from your iPhone, iPad, iPod touch, or Mac to someone else's. You can even make FaceTime calls over cellular networks on iPhone or iPad. Be there in person, even when you're not!

## **Flashlight - FREE**

Make life easier with an app that actually lights up like a REAL flashlight. This straight-forward interface is easy to use; strobe is available. *NOTE: When Apple's iOS7 is release this year, a flashlight will be built into the phone, so you won't need to install this.*

# FILE-SHARING

## **Dropbox - FREE**

Dropbox lets you store all your photos, docs, and videos anywhere and share them easily. Access any file you save to your Dropbox from all your computers, iPhone, iPad and even the Dropbox website!

## **Scanner Pro - \$6.99**

Scanner Pro transforms your iPhone and iPad into portable scanners. It allows you to scan receipts, whiteboards, paper notes or any multipage document.

## **Cam Scanner - FREE (Paid version \$4.99)**

CamScanner is an intelligent document management solution for individuals, small businesses, organizations, governments and schools. It is the perfect fit for those who want to scan, sync, share and manage various contents on all devices.

## **DocScan HD - FREE**

DocScan HD lets you instantly scan multi-page documents and send them when there is no scanner nearby. It lets you scan documents, as well as whiteboards, receipts, business cards, posters, coupons, books and more.

# NOTE-TAKING

## **Notes - FREE (Comes with iPad)**

What can you do with the iPad Notes App? Well, after you've created notes, you are likely to want to find one to open again. The Notes app gives you all sorts of options for moving among your notes and searching your notes to find the one you're looking for.

## **Notability - \$1.99**

Notability encourages productivity to be beautiful. It integrates handwriting, PDF annotation, typing, audio recording and organizing, so you can take notes your way.

## **GoodNotes - \$5.99**

GoodNotes lets you take handwritten notes, sketch diagrams, mark-up PDFs and organize them on a beautiful bookshelf. Turn pages with a swipe, highlight or add notes to any page, and share your notes with anyone. GoodNotes will automatically save your notes and has full backup function to prevent data loss.

## **Evernote - FREE**

Evernote is an easy-to-use, free app that helps you remember everything across all of the devices you use. They have a desktop, phone, web and tablet versions available. You can access your notes anytime, from any device.

# MUSIC

## **Pandora - FREE**

Pandora Radio is free, personalized radio that only plays music you'll love. Just start with the name of one of your favorite artists, songs or classical composers, and Pandora will create a custom "station" that plays similar music.

## **iHeartRadio for iPad - FREE**

iHeartRadio is a free, all-in-one digital radio service that lets you find more than 1,500 live stations. Create commercial-free, all-music custom stations, featuring songs from the artist you select and similar music.

# BUILT-IN APPS

## **App Store**

It opens a location to purchase iPad and iPhone apps. It includes price, if any, description, and reviews. New apps are added daily. Featured apps are highlighted weekly. Search by name or keyword to find apps of interest. You may also look at apps by category. The "Genius" feature reviews apps you have purchased and makes recommendations based on those purchases. Some apps are free, others have a cost that may vary over time. There is no refund on purchased apps.

## **iTunes**

This is the location to download both free and purchased music, movies, TV shows, podcasts and audiobooks. Music and podcasts may be played in the iPod app and TV shows and movies (purchased or rented) may be played in the video app.

# BUILT-IN APPS

## Settings

Here you can set preferences, set-up your e-mail accounts, switch to airplane mode, set your iPad wallpaper, view usage if using 3G, set a passcode for your iPad, and a number of other settings that are general for the iPad or specific for certain apps.

## Safari

Safari is the native web browser for the iPad. You can view all open windows and select the one you wish to view. You can also bookmark. Remember that the **iPad does not support Adobe Flash** so you will not be able to view any Flash components contained within websites.

## Mail

The mail app allows you to set up multiple e-mail accounts. This is done from Settings – Mail, Contacts, Calendars – Add Account. Some types of e-mail accounts are simple to set up. You may view attachments with it.

## Calendar

The calendar allows you to observe the day, week or month, or by a list of what you have entered. Different calendars can be combined and color-coded. The calendars can be synced with an iPhone or iPod and also with iCal, Google, Microsoft Outlook and a few others.

## Music

This app is used for music, audiobooks and podcasts. These can be synced when the iPad is connected to iTunes on a specified computer or can be downloaded/purchased from the iTunes store. It contains a search function and information about the artists when available.

# MOVIES & TV

## **TV Guide - FREE**

TV Guide's new official app for iPhone, iPad and iPod touch is your one-stop, 24/7 TV companion and our best listings guide ever. It makes TV simple again — anywhere, anytime.

## **Redbox - FREE**

Redbox is the new trend in movie rentals. You can reserve a movie for 1 night for a low cost. This app lets you reserve movies and games before you head to a Redbox Kiosk! Such a time saver!

## **Netflix - FREE**

Netflix is the world's leading subscription service for watching TV episodes and movies on your phone. This Netflix mobile application delivers the best experience anywhere, anytime. Subscription is \$7.99/month.

## **Amazon Instant Video - FREE**

Amazon Instant Video for iPad requires a Wi-Fi connection to stream videos or browse the app. Streaming or browsing over a 3G or 4G cellular connection is currently not supported. Downloaded videos can be watched without a Wi-Fi connection. Free with an [Amazon Prime](#) Membership.

## **YouTube - FREE**

Watch the world's videos and keep up with your favorite YouTube channels with the official YouTube app for iOS. Sign in to access your subscriptions, playlists, uploads and more.

# PHOTOGRAPHY

## **Camera - FREE (Comes with iPad)**

Unbelievable moments get believable when you capture them on iPad. Its 5-megapixel iSight camera has HDR support for perfectly balanced exposures. If the moment calls for motion, shoot a video instead. iPad does that, too — in 1080p HD.

## **Instagram - FREE**

Customize your photos and videos with one of several gorgeous and custom built filter effects. Transform everyday moments into works of art you'll want to share with friends and family.

## **PicTapGo - \$1.99**

PicTapGo is the simple photography app that lets you express your creativity and unique style. PicTapGo includes over 50 photo effects and allows you to layer filters and save your own custom filter recipes. PicTapGo includes film and vintage filters, crisp black and white, and beautiful color effects. Easily share your photos with family and friends on Instagram, Facebook and Twitter.

## **DipTic - \$0.99**

DipTic lets you combine and edit photos to create awesome collages that can be shared via email, Instagram, Facebook, Twitter, Flickr or Tumblr. With text captions, 14 filters, rounded borders, fun background textures and 179 customizable layouts, there are unlimited options to create unique photo collages!

# MAPS

## **Google Earth - FREE**

Opens KMZ files. Fly around the planet with a swipe of your finger using Google Earth for iPhone, iPad, and iPod touch. Explore distant lands or reacquaint yourself with your childhood home. Visit the Earth Gallery to find exciting maps such as real-time earthquakes, planes in flight, hiking trails, city tours and more.

## **Google Maps - FREE**

Use Google Maps to discover great places to eat, drink, shop and play, with ratings and reviews from people you trust. Sign in to save your favorite places and quickly access all your past searches and directions from your computer, right on your iPad.

## **Planimeter - \$4.99**

Planimeter measures distances and land areas on maps. Measure your outdoor projects - lawns, fences, paving, or anything else visible on the satellite map. Measure distances for running or bike rides. Quickly measure lot sizes and buildings. Contractors can easily measure landscaping, paving, asphalt, flat roofs and more.

## **Geo Measure - \$1.99**

A simple-to-use area and distance measurement tool for maps.

# NEWS & MARKET

## **CBOE - FREE**

CBOE Mobile gives you access to the most popular content from CBOE's website, including delayed quotes, market snapshots and charts, robust options education, CBOETV programming, the [@CBOE](#) Twitter feed and financial news updates, and much more.

## **DTN/PF - FREE**

Get the agriculture industry's most powerful content app specifically designed for the iPad. This app meets your information needs with access to award-winning agriculture news, commodity market data, and industry-specific weather intelligence.

## **agExchange - FREE**

agExchange lets you review bids from local elevators on one screen, so you can determine the best time and place to market your crops. Then, maintain your transaction records in one convenient place. The developers of this app cannot access your personal information.

# OFFICE

## **Docusign - FREE**

Sign documents or get signatures quickly and easily from your iPad or iPhone. A must-have app that will save you time and eliminate the need to print, fax or mail documents and forms for signature.

## **QuickOffice - FREE**

QuickOffice allows you to edit Microsoft Word, Excel and PowerPoint files as well as PDFs on the go. NOTE: This does NOT include full Microsoft Office functionality and should be treated as a piece of companion software rather than a replacement.

## **PDF Expert - \$9.99**

PDF Expert is the ultimate solution for all your PDF needs. It lets you read and annotate PDF documents, highlight text, make notes, draw with your finger and save these changes being compatible with Preview and Adobe Acrobat. Moreover, PDF Expert is the best iPad application that can complete PDF forms!

## **GoTo Meeting - FREE**

When an idea demands collaboration, simply launch a meeting. Connect virtually with all the right people instantly, using GoToMeeting on your iPad or iPhone. View slide presentations, design mockups, spreadsheets, reports – whatever meeting presenters choose to share onscreen. And iPad users can even present and collaborate face-to-face!

# AGRONOMY

## **SoilWeb - FREE**

GPS based, real-time access to USDA-NRCS soil survey data, formatted for the iPhone. This application retrieves graphical summaries of soil types associated with the iPhone's current geographic location, based on a user defined horizontal precision. Sketches of soil profiles are linked to their official soil series description (OSD) page.

## **JD Link - FREE**

This equipment management app from John Deere is a telematics system designed to remotely connect owners and managers to their equipment, providing alerts and machine information including location, utilization, performance and maintenance data to manage where and how equipment is being used.

## **JD Mobil Farm Manager - FREE**

Install the free Adobe Reader mobile app to work with PDF documents on your iPad, iPhone, and iPod touch. Easily access, manage, and share a wide variety of PDF types, including PDF Portfolios, password-protected documents, fillable forms, and Adobe rights-managed PDF.

## **YieldCheck - FREE**

Developed by Precision Planting, YieldCheck provides growers with a simple way to calculate and store corn yield estimates. Users can organize estimates based on client, farm and field. They can also see the location of all of their estimates on a map with satellite imagery. For example, users can simply enter kernel counts for three ears of corn and reveal the amount of bushels they can expect this fall.

# AGRONOMY

## **Ag PHD Harvest Loss Calc - FREE**

The Ag PhD Harvest Loss Calculator helps you determine how much of your crop you are leaving in the field after harvest. Simply select your crop and input the number of seeds/kernels you count on the ground in a square foot. The app returns a harvest loss calculation in both bushels per acre and pounds per acre.

## **Aphid Speed Scout - FREE**

This app from the University of Nebraska-Lincoln Extension quickly determines if soybean aphids have reached the 250 aphids per plant threshold. Plants are considered "infested" if there are 40 or more aphids on that sample. The app also recommends further scouting or treatment options based on the number of infested plants in a given area.

## **iCropTrak - FREE**

Named a Top 10 New Product Award winner for 2012 at the World Ag Expo, the iCropTrak is a multi-user software solution that runs in the field with or without Internet connectivity. It allows users to take advantage of geographic data as the GPS technology in the iPad. The larger screen size aids touch interaction.

## **Farm Manager - \$16.99**

The Farm Manager app allows farmers to record cropping, livestock, and machinery procedures, and then access this information with ease. Users can record full history of crops from when they are sown through harvest; record chemical and fertilizer use, including type, rate, and date applied; and track machinery maintenance.

# AGRONOMY

## **Nutrient Removal - FREE**

The Mosaic Co.'s new app provides growers and retailers with valuable nutrient removal data in support of higher yields. Utilizing years of agronomic research, the Nutrient Removal app is a next-generation take on the data previously seen in the "Balanced Crop Nutrition" guide. This app also allows users to test potential yields, generating results that are crop- and region-specific. (Available for Android)

## **Precision Earth - FREE**

The PrecisionEarth soil sampling app makes it easier to collect grower, field and soil sampling data. The app uses only open standards so the data you load and the data you export will work with your current GIS, Web and desktop applications seamlessly. Users can load and display directed sampling layers and boundary vectors, export soil sampling location and display background maps.

## **Corn Yield Calculator - \$0.99**

Estimate the number of bushels produced in a given field with no Internet connection required! So NO more need to stop while in the field. You can figure out how many bushels you'll have on the go! These apps are made by farmers for farmers,.

## **Growing Degree Days - FREE**

The Farm Progress Growing Degree Days application measures the maturity of your crop by viewing current and past growing degree days data for your farm's location. Growing degree days (GDD) are a measure of heat accumulation used in agriculture to predict the date that crops will reach maturity.

# AGRONOMY

## **Measure Your Land - FREE**

It's a tape measure for planet Earth! Measure roads, buildings or lands from the bird's eye view.

## **Purdue Ext. Corn & Soybean Field Guide - \$12.99**

For more than 20 years, growers and consultants have relied on the Purdue Extension Corn & Soybean Field Guide. Purdue University specialists created this comprehensive, science-based app to help you in the field or classroom. It provides a range of tools and information to help you effectively manage corn and soybean production.

## **Bayer Weed Spotter - FREE**

Based on the extremely popular Bayer CropScience weed guide, the weed spotter app takes weed identification one step further by allowing users to make accurate identification using a unique interactive filtering system.

## **AGRIplot - FREE**

AGRIplot allows you to plot any area on a map. Simply walk around your property and add a landmark point, or drag and drop pins anywhere on the map. AGRIplot will automatically calculate the area enclosed by the points and provide the distances between each point. Interest points allow you to identify additional features for your plot. You can even take pictures associated with each landmark or interest point for a visual representation. Share your plot with the option to email a PDF version of the plot information.

# AGRONOMY

## **NIPIM Guide - FREE**

This guide is intended to provide current effective management options for insect and other arthropod pests affecting soybeans grown in North Dakota, South Dakota, Nebraska, Iowa, Minnesota and Kansas.

## **ScoutPro CORN - \$29.99**

The app allows users to scout and identify weeds, insects, disease and disorders while in the field. Users are then able to upload important field data, images and notes to generate field specific scouting reports.

## **ScoutPro CORN Consultant - \$29.99**

The app assists users in identifying weeds, insects, disease and disorders while in the field. Users are then able to upload important field data, images and notes to generate field specific scouting reports. In addition, the app allows for the aggregations for data and searchable fields to find grower reports from multiple scouts.

## **ScoutPro Iowa Soybean App - \$29.99**

Iowa farmers depend on timely and accurate data to make sound business management decisions. The Iowa Soybean Association, through an investment of soybean checkoff dollars and backed by research conducted by ISU Extension, is pleased to make this product available to help farmers take the guess work out of crop scouting. The acquisition of immediate, accurate and pinpointed information improves efficiency to help make your farm business more successful.

# AGRONOMY

## **ScoutPro SOY - \$29.99**

The app allows users to scout and identify weeds, insects, disease and disorders while in the field. Users are then able to upload important field data, images and notes to generate field specific scouting reports.

## **ScoutPro SOY Consultant - \$29.99**

The app assists users in identifying weeds, insects, disease and disorders while in the field. Users are then able to upload important field data, images and notes to generate field specific scouting reports. In addition, the app allows for the aggregations for data and searchable fields to find grower reports from multiple scouts.

## **Farm Pad - FREE**

This app from TapLogic allows users to enter farm records, equipment service logs, spray records and take notes or pictures. You can also draw field boundaries with GPS or by hand. Sync to your Web account where you can print reports, review history and draw and print field maps.

## **CropNAtion - FREE**

cropNAtion is a virtual social network for farmers to share information, images of their crops and track agriculture trends in their region. The app has been recognized by CropLife America and has received the AgGateway Information Technology Innovation Award. (Android, iPhone)

# AGRONOMY

## **Tractor House - FREE**

TractorHouse is the leading resource for buyers and sellers of farm equipment. Now available on your iPhone! Featuring thousands of listings from hundreds of dealers through North America, TractorHouse for the iPhone lets you drill down instantly to the category, make and model you need.

## **Tank Mix Calculator - FREE**

Tank Mix Calculator is an easy to use farm app from TapLogic, which developed the powerful FarmLogic. FarmLogic allows you to enter and store records as you work in the field using our FarmPAD app or enter your work through the web component of FarmLogic. Either way, our system works like you farm, so using it will come naturally. FarmLogic provides secure, instant access to your farm records from any computer logged onto the web, anywhere.

## **Soil Test Pro - FREE**

Soil Test Pro makes soil sampling easier for you as a grower or service provider. Save money and work smarter! Get lab results, fertilizer recommendations and controller files for all leading monitors, tractors and implements.

## **Weed Manager PLUS - FREE**

Featuring a mobile version of the Crop PHD tool, this app delivers accurate weed management recommendations for your region. It includes a tank mixing tool and a measurement conversion calculator for commercial farmers.
